

21 December 2017

Veltyco Group plc
(“Veltyco”, the “Company” or the “Group”)

Blockchain and Cryptocurrency

The Board of Veltyco Group plc (AIM:VLTY), the online marketing company for the gaming industry, is pleased to announce that it has commenced discussions with blockchain and cryptocurrency providers to enter into partnerships to enable Veltyco’s customers to use cryptocurrencies to create one wallet for the Group’s various operating partners in the gaming industry.

A cryptocurrency is a digital currency in which certain principles of cryptography are used to regulate the generation of units of currency and verify the transfer of funds, operating independently of any central bank. Cryptography is used to secure the transactions and to control the creation of new coins.

Veltyco is planning to offer its customers the use of a crypto wallet that can be used across the platforms of all of Veltyco’s partners, allowing customers access to each platform without having to make separate deposits on the individual platforms as well as enabling Veltyco to cross-sell the different platforms to its customer base.

Veltyco will provide further updates in this regard as appropriate.

This announcement contains inside information for the purposes of Article 7 of Regulation (EU) 596/2014.
